

Vishwa Teja Peddi

Waterloo, ON | vtpeddi@uwaterloo.ca | (226) 698-0152

Education

Bachelor of Mathematics, University of Waterloo, GPA: 92.1/100 Sept 2024 – June 2029

- **SOA Exam P** (Jan 2026) | **SOA Exam FM** (Dec 2025) | **CAS MAS-I** (target: Spring 2027)

Technical Skills

Languages: Python, R, SQL, VBA

Libraries: Pandas, Statsmodels, Scikit-learn, ggplot2

Tools: Excel, Git, GitHub, LaTeX, Microsoft Office

Projects

Auto Insurance Claim Prediction Model

Python, R, SQL | GitHub

- Built an end-to-end **GLM pipeline** in **SQL, Python, and R** to predict auto insurance claim probability on 595,212 customers
- Fit a **Logistic** and **Poisson GLM**, achieving an out-of-sample **AUC of 0.623** on a held-out test set
- Performed feature engineering and EDA using **DuckDB** and **Pandas**, identifying key risk predictors including vehicle and driver characteristics

Experience

Online Course Developer—University of Waterloo

May 2026 – Aug 2026

- **Authored 270+ assessment questions** in **HTML/Mobius** across MATH 106, 127, 128, 137, and 138, updated **65 practice problems**, and **created 4 reusable HTML question templates** plus an inventory of existing Mobius templates to standardize question development
- **Automated exam ingestion** by writing a **Python** script that parses **LaTeX** exam files and generates Mobius-ready exam code, eliminating manual question entry
- **Repaired corrupted MATH 225 course notes** by debugging Mobius-to-PDF conversion code, restoring a full set of lecture notes for student use
- Built lesson pages, worked examples, and **question-authoring tools** for the Computational Mathematics course website; produced **Manim** animations used in online course content
- Prepared step-by-step **data-extraction manuals** for a research lab's brain sensor and improved the **screen-reader accessibility** of course PDFs (tagging, alt text, reading order)

Math Center Coordinator

Sept 2025 – Dec 2025

- Managed daily operations of the Mathematics Tutoring Center at the University of Waterloo
- Collected data on student learning analytics (session duration, specific struggles, question volume) and visualized trends using **Excel** to inform tutor scheduling

Math/Aerospace Club Executive—Laurel Heights Secondary School

Sept 2023 – June 2024

- Taught classes of up to **50 students** contest and **undergraduate level mathematics**
- Taught basic aerodynamic concepts such as placement of center of mass, center of lift, and drag, culminating in a Do-It-Yourself model plane competition attended by 15 students

Mathematics Teacher—HomeworkHub, Volunteer

Oct 2022 – June 2024

- Taught **100+ hours** of mathematics to elementary school kids, ranging in topics from reading a clock to factoring polynomials
- **Designed lecture material** with Google Slides and planned course ahead to ensure students' maximal success

Awards

President's Scholar of Excellence, \$15k, Declined—University of Toronto

Top 150 of 17k+ applicants

Fermat Honor Roll—University of Waterloo

Top 300 of 13k+ participants

President's Scholar of Distinction, \$4k—University of Waterloo

95%+ high school average
